
Diamond Earring Huggie

Diamond Earring Huggie/Huggy

Huggy earrings are a style of earrings where the earring actually 'hugs' the earlobe. Diamond earring huggie style earrings are a very popular style of earrings.

Huggy style diamond earrings are found in many different sizes and shapes. Shapes can be round, square, rectangle or special shapes like hearts.

The huggy earring style, especially huggy diamond earrings, is a very popular style for custom diamond earring makers. The huggy style allows for many different varieties of settings for the jeweler. A popular diamond earring huggie style is the channel where the diamonds are set in a channel that adds a great effect and sparkle to the ear.
